Wednesday 3 May

1600 – 1800 Young litigators seminar

Obergericht des Kantons Zürich, Hirschengraben 15, 8001 Zürich

The session will be based on a hypothetical supported by materials and will be around witness examination.

The idea will be for all the attendees to read the materials (which are not too substantial) in advance and prepare their own examination of the witness. The session will start with the panel providing advice on do's and don'ts and differences between the various ways of examining witness in different jurisdictions. Then the panel will put in practice its recommendations as one of the team members will play the witness. And then a few attendees (4-5) will be given the opportunity to run their own examination and receive feedback.

Please contact either Clément Dupoirier clement.dupoirier@hsf.com or Feodor Vyacheslavov fvyacheslavov@vlaywers.ru if you have any queries regarding this seminar.

New technologies in court

Bold about change – how technology is being embraced by shrewd litigators and courts

The data explosion is one of the reasons why smart litigators realise the use of technology in the courtroom and in preparation for trial is a critical necessity to improve the delivery of justice, speed and efficiency of the court system. With technology rapidly developing, courts have either transformed or are urgently playing catch-up. The panel will discuss technological transformations and piloting experiments in the courts of seven global litigation hot spots, and what technology is or if it should be available.

Cutting edge ways of introducing and taking evidence

“New ways of taking and presenting evidence and dealing with big data”

3-D Animation has become one standard form of presenting evidence in court. The panel will explore what else is or will become available to introduce evidence in a more efficient way. What technologies are out there to collect evidence effectively and to cope with big data, especially with a focus on social media? Where will the ethical borders be drawn? Will psychology influence presentation of evidence more than in the past? Will we see better lie-detectors, financial engineering, expert opinions? What else is to be expected?

If any deductions or withholdings are required by law to be made from any fees payable to us by you under the terms contained in this 'Information' section you shall pay such sum as will, after the deduction or withholding has been made, leave us with the same amount as we would have been entitled to receive in the absence of any such requirement to make a deduction or withholding.

If we obtain the benefit of any tax credit or other relief by reference to any such deductions or withholdings, then we shall repay to you such amount as, after such repayment has been made, will leave us in no worse position than we would have been had no such deductions or withholdings been required.

Conference sell-outs

The IBA places its conference in venues of a suitable size for the event; however there are times when our conferences may sell out. Should this happen, prospective delegates will be informed and a waiting list will operate. The waiting list will function on a 'first come, first served' basis, subject to receiving registered delegate cancellations. The IBA will not be liable for any travel or accommodation expenses incurred by an individual who travels to the conference without a confirmed place at the event.

The organisers may at any time, with or without giving notice, in their absolute discretion and without giving any reason, cancel or postpone the conference, change its venue or any of the other published particulars, or withdraw any invitation to attend. In any case, neither the organisers nor any of their officers, employees, agents, members or representatives shall be liable for any loss, liability, damage or expense suffered or incurred by any person, nor will they return any money paid to them in connection with the conference unless they are satisfied not only that the money in question remains under their control but also that the person who paid it has been unfairly prejudiced (as to which, decision shall be in their sole and unfettered discretion and, when announced, final and conclusive).

Cancellation of registration

If cancellation is received in writing at the IBA office by **Friday 7 April**, fees will be refunded less a 25 per cent administration charge. Refunds will be made minus any monies owed to the IBA.

We regret that no refunds can be made after this date. Registrations received after **Friday 7 April** will not be eligible for any refund of registration fees. Please note that **NO** exception will be made to this policy. Should you have difficulties in obtaining your visa and are not able to attend the conference this cancellation policy will still apply.

Delegates are responsible for making accommodation reservations directly with the hotel and entering into an agreement with the hotel regarding credit card guarantees, cancellation terms and conditions, and room rates (should these differ from the special IBA rate). The IBA cannot accept responsibility for hotel accommodation disputes between a delegate and the hotel.

Provided you have cancelled your registration to attend an IBA conference in accordance with the terms of the 'cancellation of registration' clause included in the 'Information' section of the relevant conference programme, you must then confirm to us in writing at the IBA office as soon as possible but in no event later than one year (12 calendar months) from the date of any such conference all necessary details to enable any reimbursement owed to you to be paid. We regret that no refunds will be made after the date that is one year (12 calendar months) after the date of the relevant conference.

Unauthorised accommodation agents

It has been brought to our attention that there are multiple companies contacting past attendees, claiming to represent the IBA, offering 'assistance' with registration and hotel bookings.

They are operating by cold-calling and spamming companies whose names have appeared on previous List of Participants, Programmes and Sponsorship recognition. The only Accommodation Agent the IBA works with is JLC. JLC do not contact delegates on behalf of the IBA without delegates making initial contact. Please ignore any communication that does not come directly from the IBA or JLC.

Disabled access

The Zurich Marriott Hotel is wheelchair accessible. Please notify us if you require special assistance.

International Bar Association

the global voice of the legal profession

The **International Bar Association** (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations and law societies. The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 80,000 individual legal professionals and 190 bar associations and law societies spanning all continents and has considerable expertise in providing assistance to the global legal community.

Grouped into two divisions – the Legal Practice Division and the Public and Professional Interest Division – the IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information. Through the various committees of the divisions, the IBA enables an interchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of law around the globe. Additionally, the IBA's world-class conferences provide unrivalled professional development and network-building opportunities for international legal practitioners, senior business professionals, regulators and government officials.

Litigation Committee overview

The Litigation Committee focuses on the legal, practical and procedural issues involved in conducting litigation. Differences and developments in individual jurisdictions are compared. The issues arising in international litigation receive particular attention, including issues such as jurisdiction, choice of law, and the role of international judicial assistance in dispute resolution. Practitioners involved in larger scale or international litigation can debate topical issues and share their experiences of handling and solving the problems arising from such disputes. In particular, the committee seeks to explore the differences of approach between the common law and civil law traditions, and to encourage a dialogue between practitioners from these two systems.

Close links are maintained with various organisations such as the American Bar Association Litigation Section, the British Institute of International and Comparative Law and the Australian Corporate Lawyers Association.

The committee meets each year at the IBA Annual Conference and also has a specialist litigation conference generally held in May or June, together with regular seminars and events organised by the committee's local country chairs. The Annual Conference also provides an occasion for the Young Litigators' Forum to offer an opportunity for young lawyers to present papers and exchange ideas.

Committee members receive regular copies of the committee's newsletter which provides details of current activities plus recent developments in the law worldwide. Members also receive the biannual journal of the IBA's Dispute Resolution Section, Dispute Resolution International. Full details of the committee's Executive Committee and its regional and country chairs are published in the newsletter, and are available on the IBA website. The committee welcomes applications for membership from all lawyers with an interest in litigation.

European Regional Forum overview

The European Regional Forum has been developing and strengthening the existence of the IBA within the whole of Europe by promoting the goals of the IBA to members, non-members and others, disseminating professional know-how, and assisting the committees and other constituencies of the IBA to increase their presence in the different neighbouring regions of Europe, including parts of North Africa and the Middle East.

The goals of the forum include addressing current and long-term needs of professional organisations and individual members within the geographical reach of the Forum, as well as increasing membership and participation in the IBA and integrating them within the organisation. The Forum will also facilitate cross-border activity between lawyers and bars in different European countries. The Forum has a particular focus on cross disciplinary activities.
